

SUMMARY

Unauthorized Dual Employment MTA/OIG #2013-04

An MTA Office of the Inspector General investigation established that a Computer Specialist with New York City Transit's Division of Technology and Information Services was operating an outside business without the express approval of NYC Transit, a violation of the MTA Code of Ethics and NYC Transit's dual employment policy. Specifically, employees are required to notify and obtain advance approval from NYC Transit's Human Resources Department of any outside employment.
